1. Claims 1-59 are presented for examination.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-12, 27-36, and 51-54, drawn to a method and apparatus for selecting second stream uOP if the first stream uOP is not critical, classified in class 712, subclass 214.
 - II. Claims 13-26, 37-50, and 55-59, drawn to a method and apparatus for identifying a first stream uOP as critical based on a metric applied, classified in class 718, subclass 103.
3. The inventions are distinct, each from the other because of the following reasons:
Inventions of *Group I* and *Group II* are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because *the invention of group I can be used in a system without the metric applied determination of criticality*. The subcombination has separate utility such as use in a system *without the selection of second stream uOP*.
4. Because these inventions are distinct for the reasons given above and the search required for *one group* is not required for *the other group*, restriction for examination purposes as indicated is proper.
5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
